

Ancient Astronomical Observations and the Study of the Moons Motion 1691-1757 Sources and Studies in the History of Mathematics and Physical Sciences

BOOK DETAILS

- Author : John M. Steele
- Pages : 158 Pages
- Publisher : Springer
- Language : English
- ISBN : 1461421489

 [DOWNLOAD](#)

BOOK SYNOPSIS

The discovery of a gradual acceleration in the moon's mean motion by Edmond Halley in the last decade of the seventeenth century led to a revival of interest in reports of astronomical observations from antiquity. These observations provided the only means to study the moon's 'secular acceleration', as this newly-discovered acceleration became known. This book contains the first detailed study of the use of ancient and medieval astronomical observations in order to investigate the moon's secular acceleration from its discovery by Halley to the establishment of the magnitude of the acceleration by Richard Dunthorne, Tobias Mayer and Jérôme Lalande in the 1740s and 1750s. Making extensive use of previously unstudied manuscripts, this work shows how different astronomers used the same small body of preserved ancient observations in different ways in their work on the secular acceleration. In addition, this work looks at the wider context of the study of the moon's secular acceleration, including its use in debates of biblical chronology, whether the heavens were made up of æther, and the use of astronomy in determining geographical longitude. It also discusses wider issues of the perceptions and knowledge of ancient and medieval astronomy in the early-modern period. This book will be of interest to historians of astronomy, astronomers and historians of the ancient world.

ANCIENT ASTRONOMICAL OBSERVATIONS AND THE STUDY OF THE MOONS MOTION 1691-1757 SOURCES AND STUDIES IN THE HISTORY OF MATHEMATICS AND PHYSICAL SCIENCES - Are you looking for Ebook Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences ? You will be glad to know that right now Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product.

Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences may not make exciting reading, but Applied Numerical Methods With Matlab Solution Manual 3rd Edition is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences and many other ebooks.

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences . To get started finding Ancient Astronomical Observations And The Study Of The Moons Motion 1691-1757 Sources And Studies In The History Of Mathematics And Physical Sciences , you are right to find our website which has a comprehensive collection of manuals listed.
